

# PRINCE OF PEACE

## CHURCH CLEAN-UP DAY

### SATURDAY, SEPTEMBER 30, 2023

### 8AM – 4PM

*It's time to clean and spruce up our church home! Please consider joining your church family for fellowship, Christian camaraderie, and maybe even a little hard work, as we look to complete a list of routine maintenance projects and upkeep within the church facility. We have a magnificent church facility and grounds, but it takes time, talent and some effort to maintain such as we have. The Trustees are hoping for your help. Many hands make short work of even the most difficult jobs.*

*Projects planned for that day are listed below. The Trustees will be available on site to provide guidance and tools. Those of you who are able to bring or provide trimmers, rakes, shovels, cleaning rags, and such are asked to bring them along. Just show up. We need the hands and help! No registration is required. You may also want to plan to do a specific job or chore on the list by contacting Roger at (608) 792-2007 or by indicating your interest by signing the project sheet posted in the narthex.*

*The plan is to break for pizza at noon for a luncheon and then continue working until the projects are completed or 4 pm, whichever occurs first!*

*It is anticipated that clean-up days will be held more routinely (whether interior or exterior spaces) on a quarterly basis. Dates will be posted in a future newsletter. Your help is critical to the ministry here at Prince of Peace, so keep this effort in mind. Further, since lockdowns finally appear to be behind us, the Trustees hope to reestablish routine Thursday work days to complete routine and special church projects. Please contact Roger if you care to volunteer for this effort.*
